THE 1958 MONTANAN

PUBLISHED BY THE ASSOCIATED
STUDENTS OF MONTANA STATE COLLEGE

Editor JACK PIERCE

PAGE 2 **THE PLACE...**

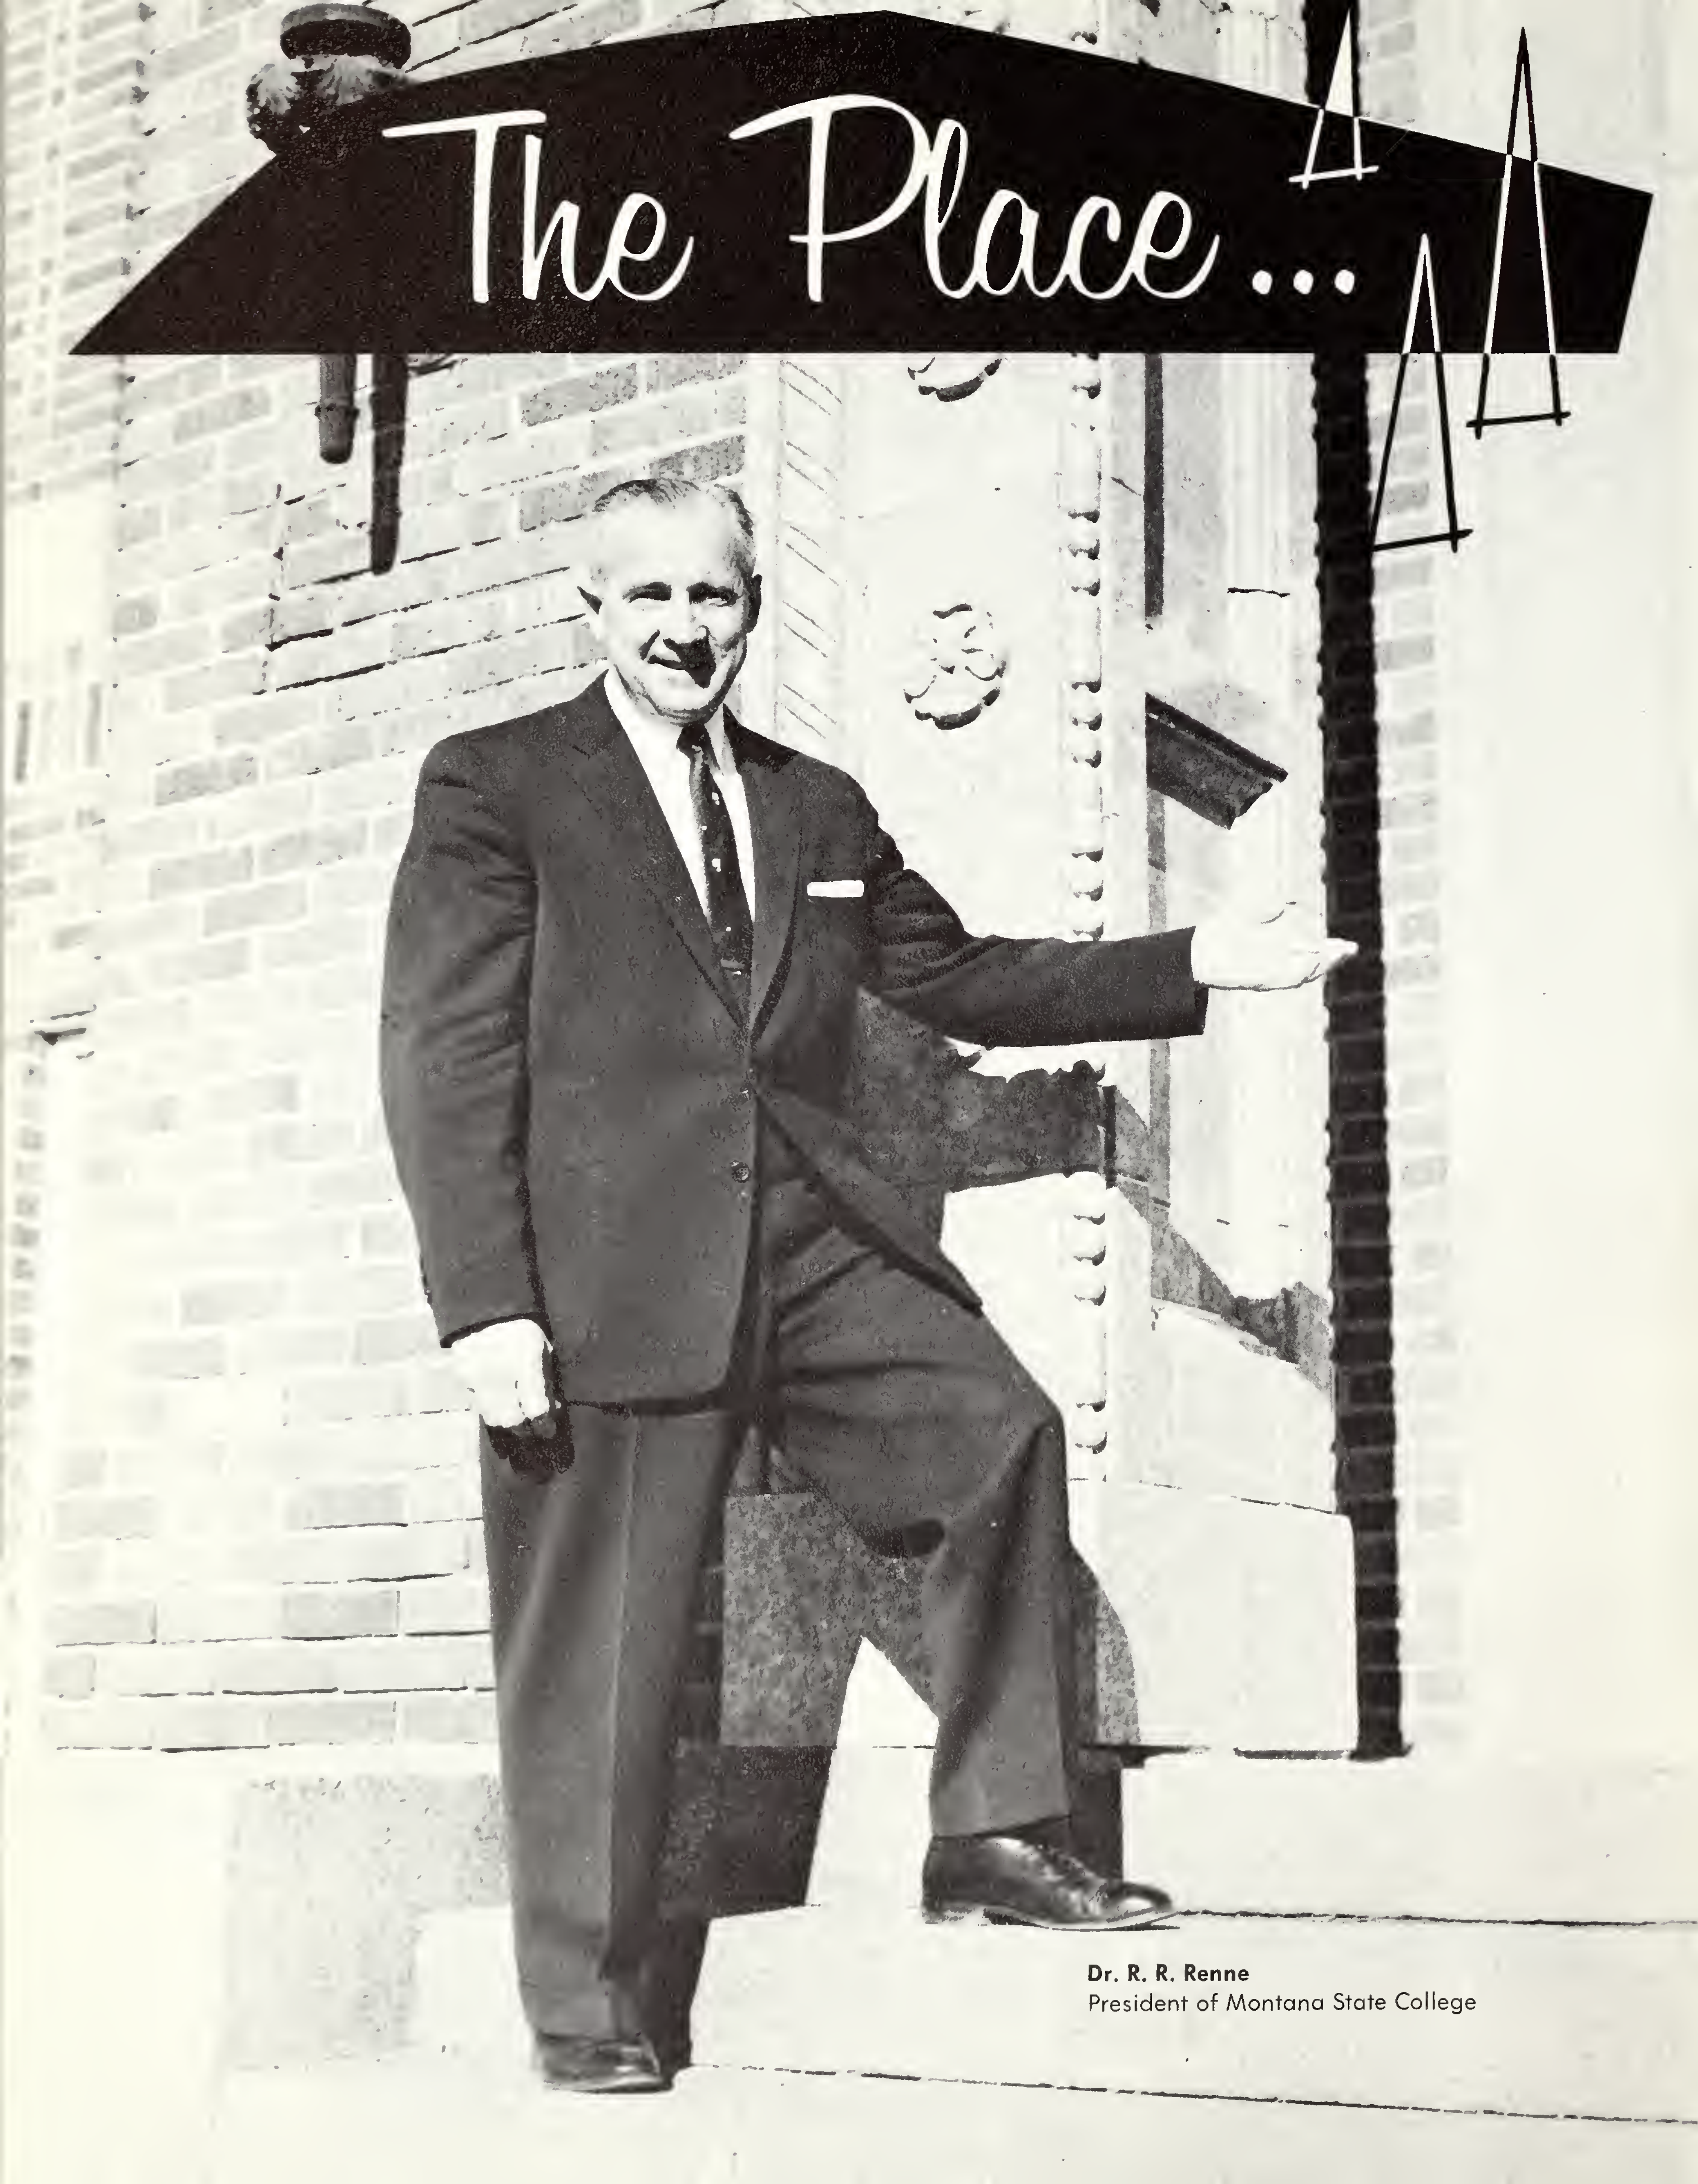
PAGE 214 **THE EVENTS...**

The Place . . .



Dr. R. R. Renne
President of Montana State College

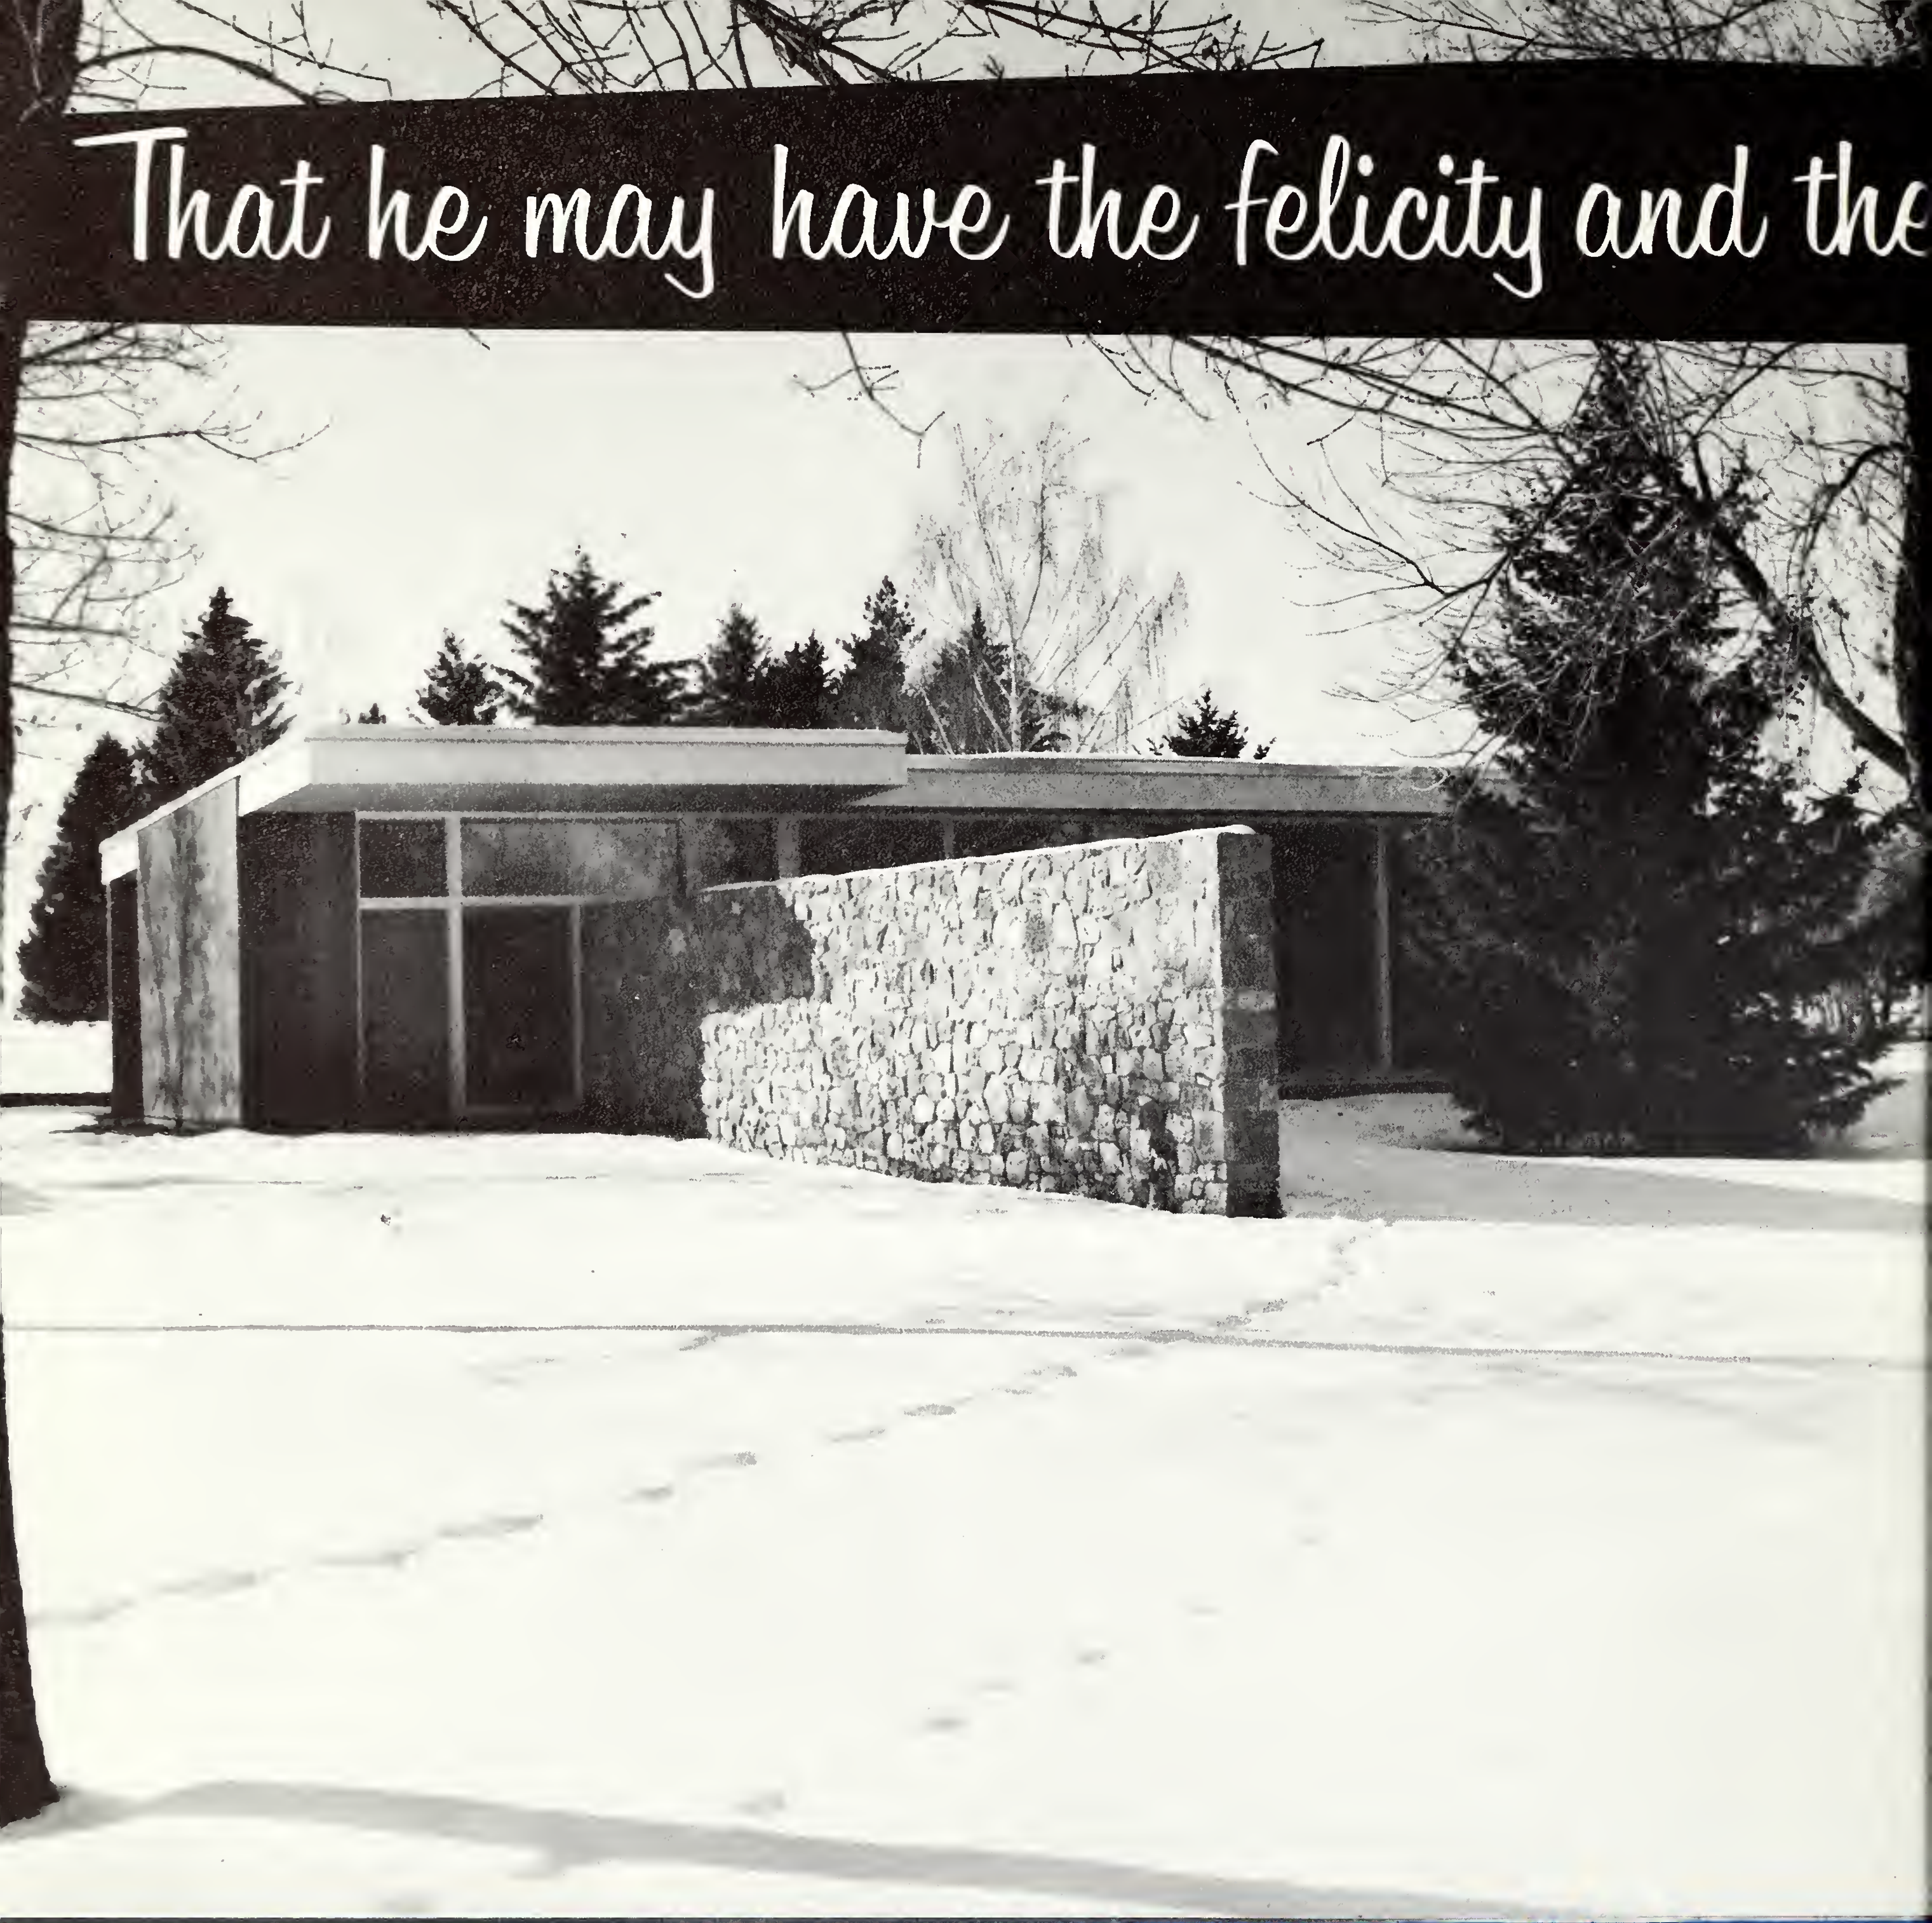
Man is created at the

MONTANA ST

point of blank ignorance

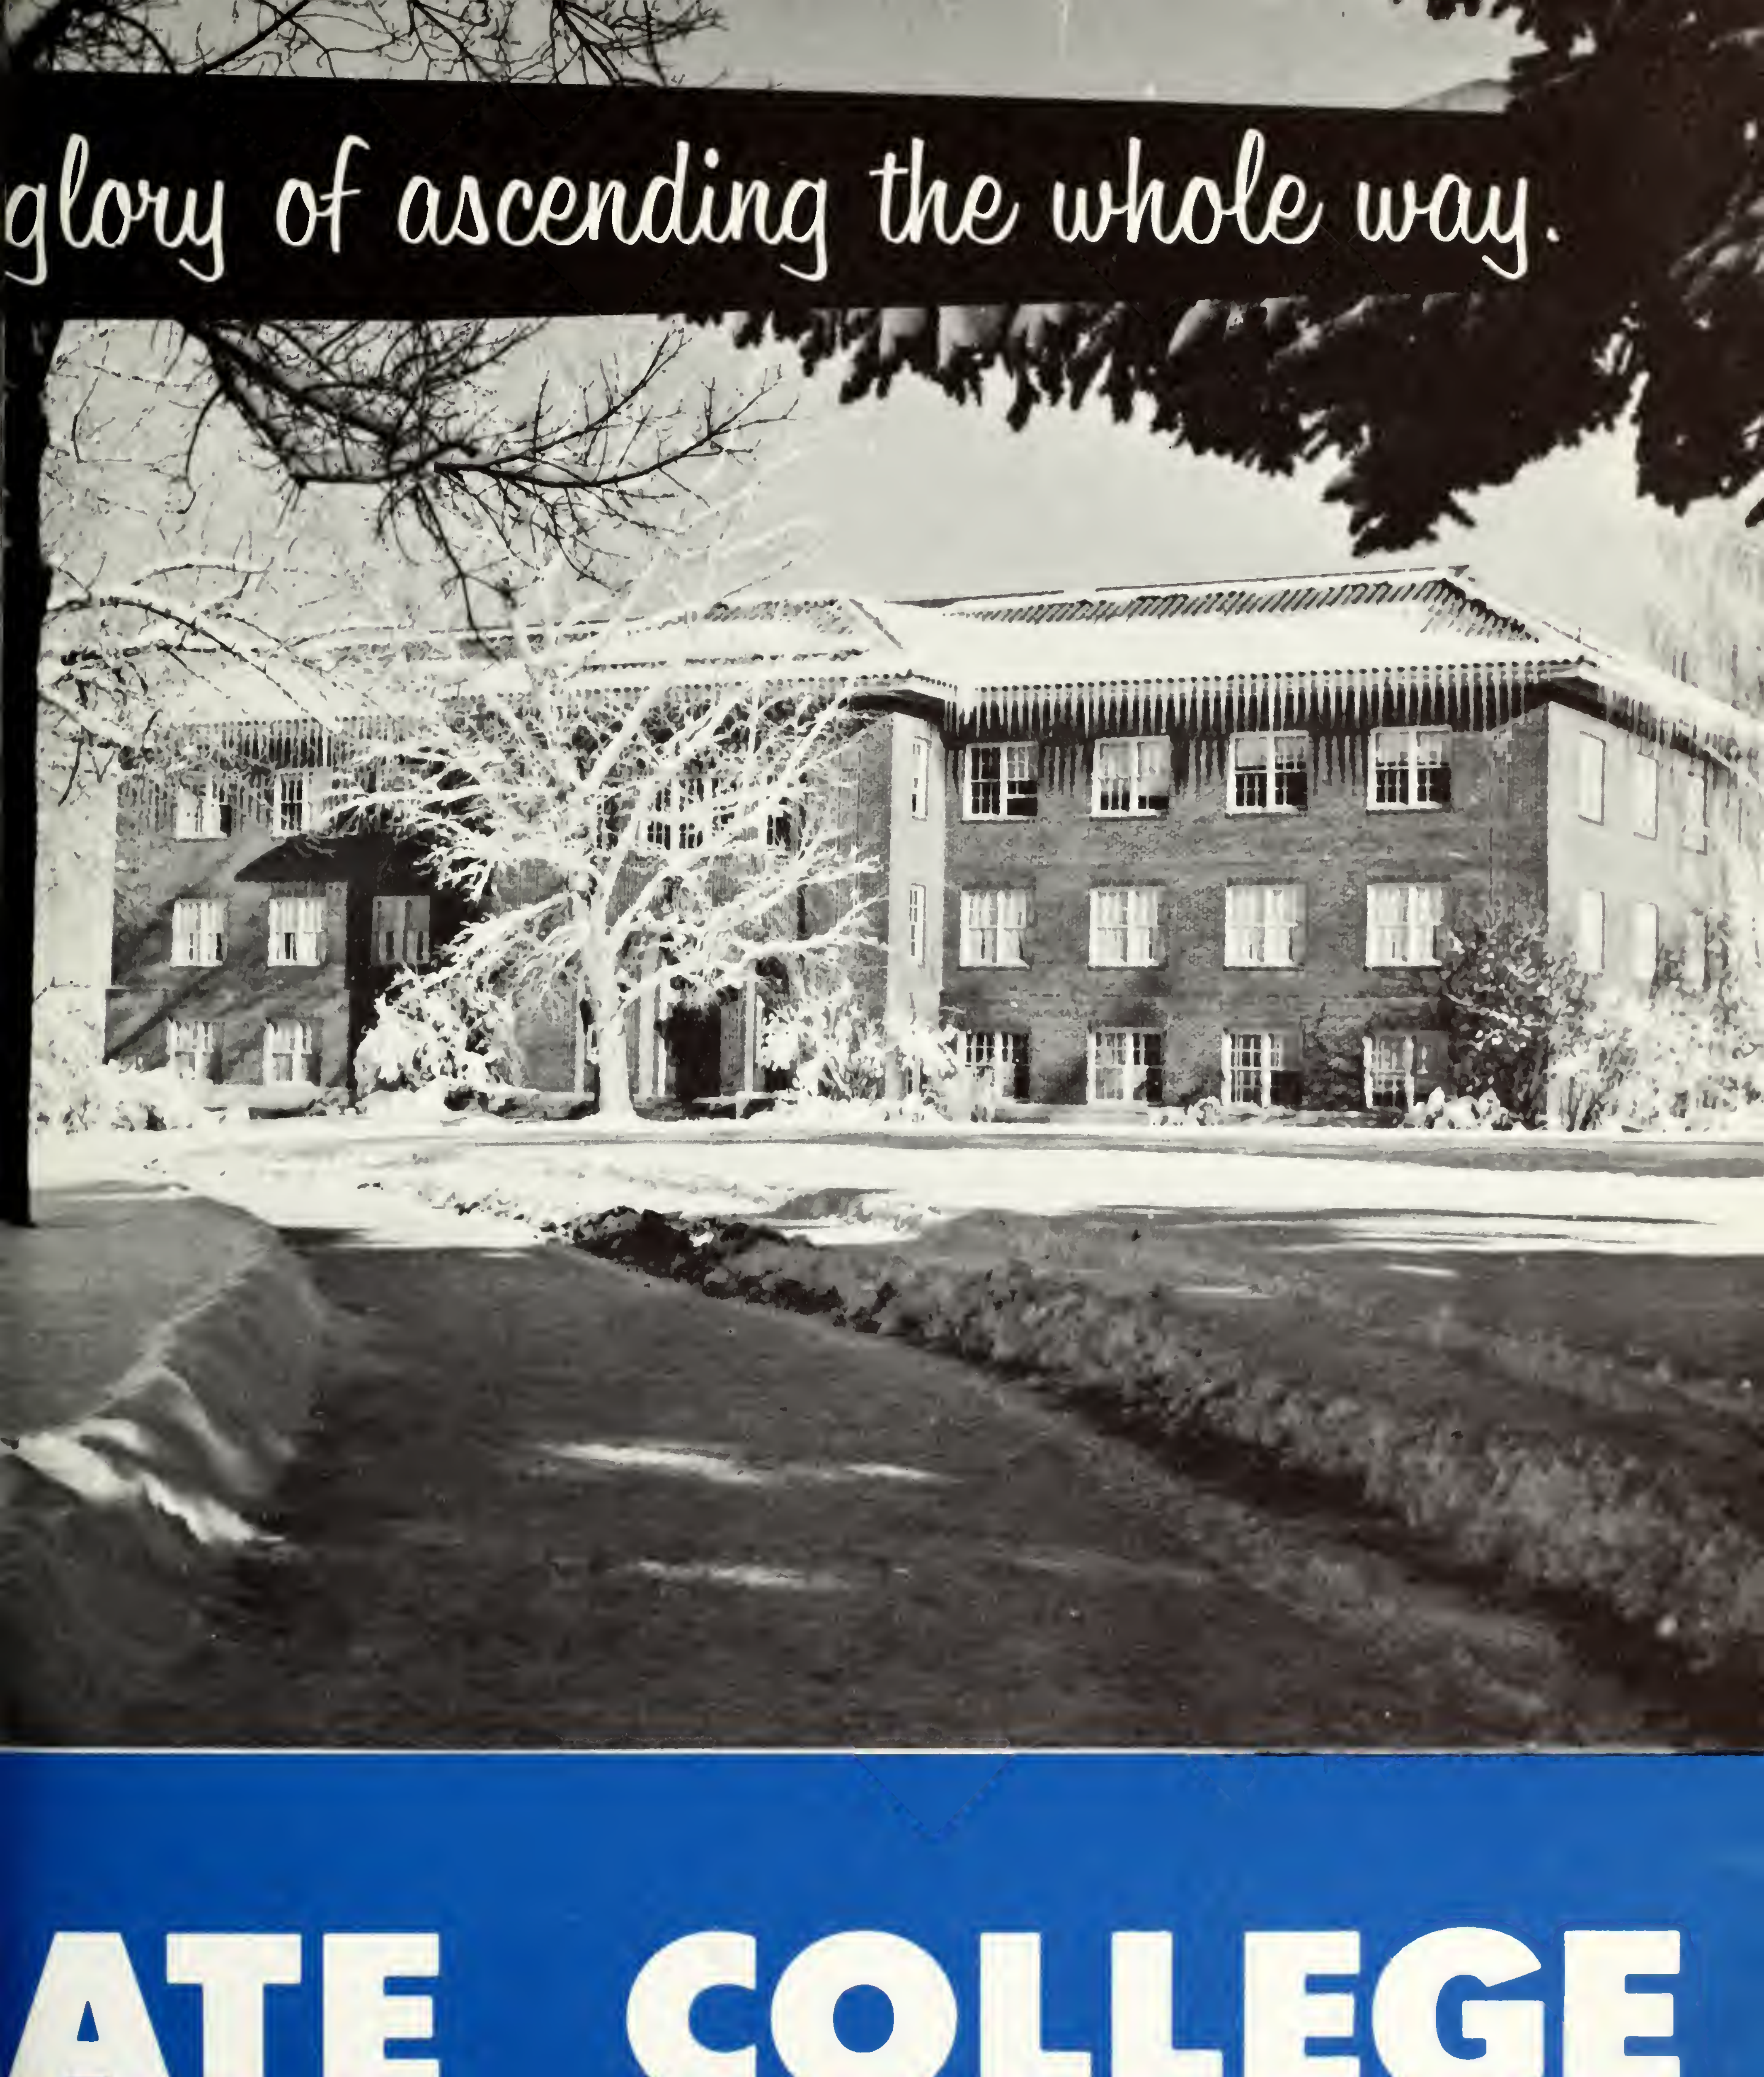
ATE COLLEGE

That he may have the felicity and the



MONTANA ST

glory of ascending the whole way.



ATE COLLEGE

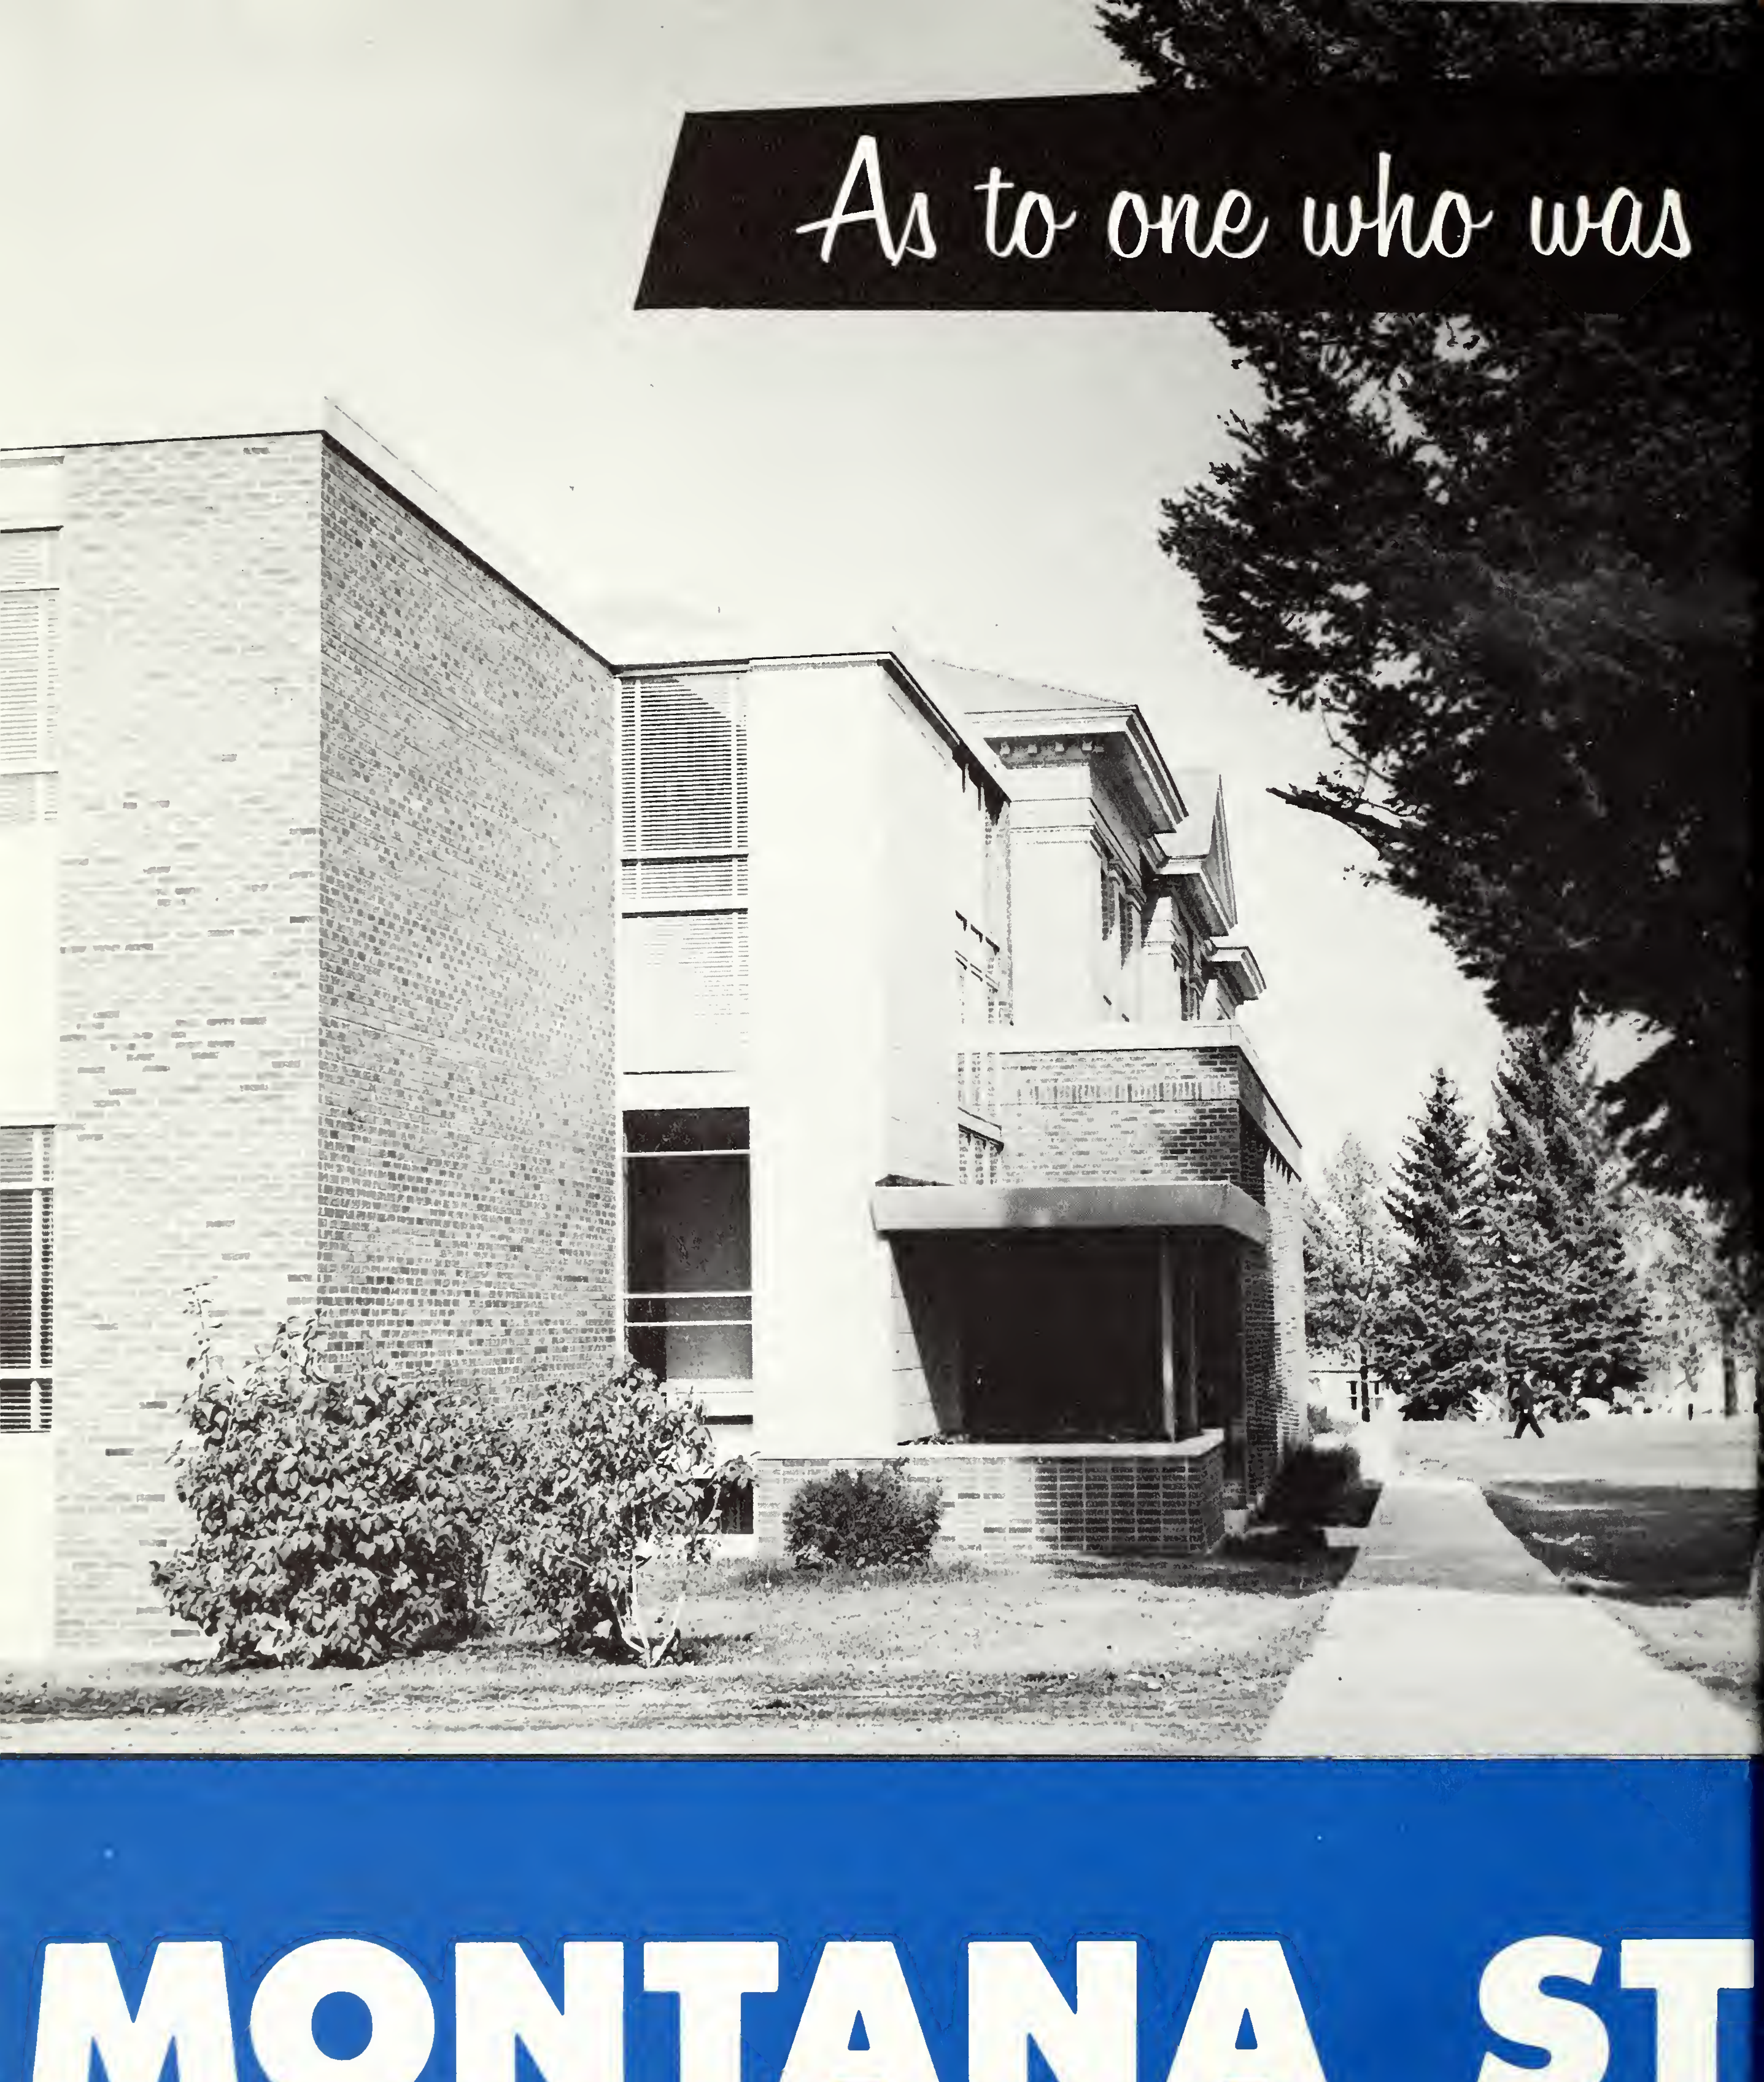
A mountain can never appear

MONTANA ST

so grand to one born on its top

ATE COLLEGE

As to one who was



MONTANA ST

cradled in the vale,

ATE COLLEGE

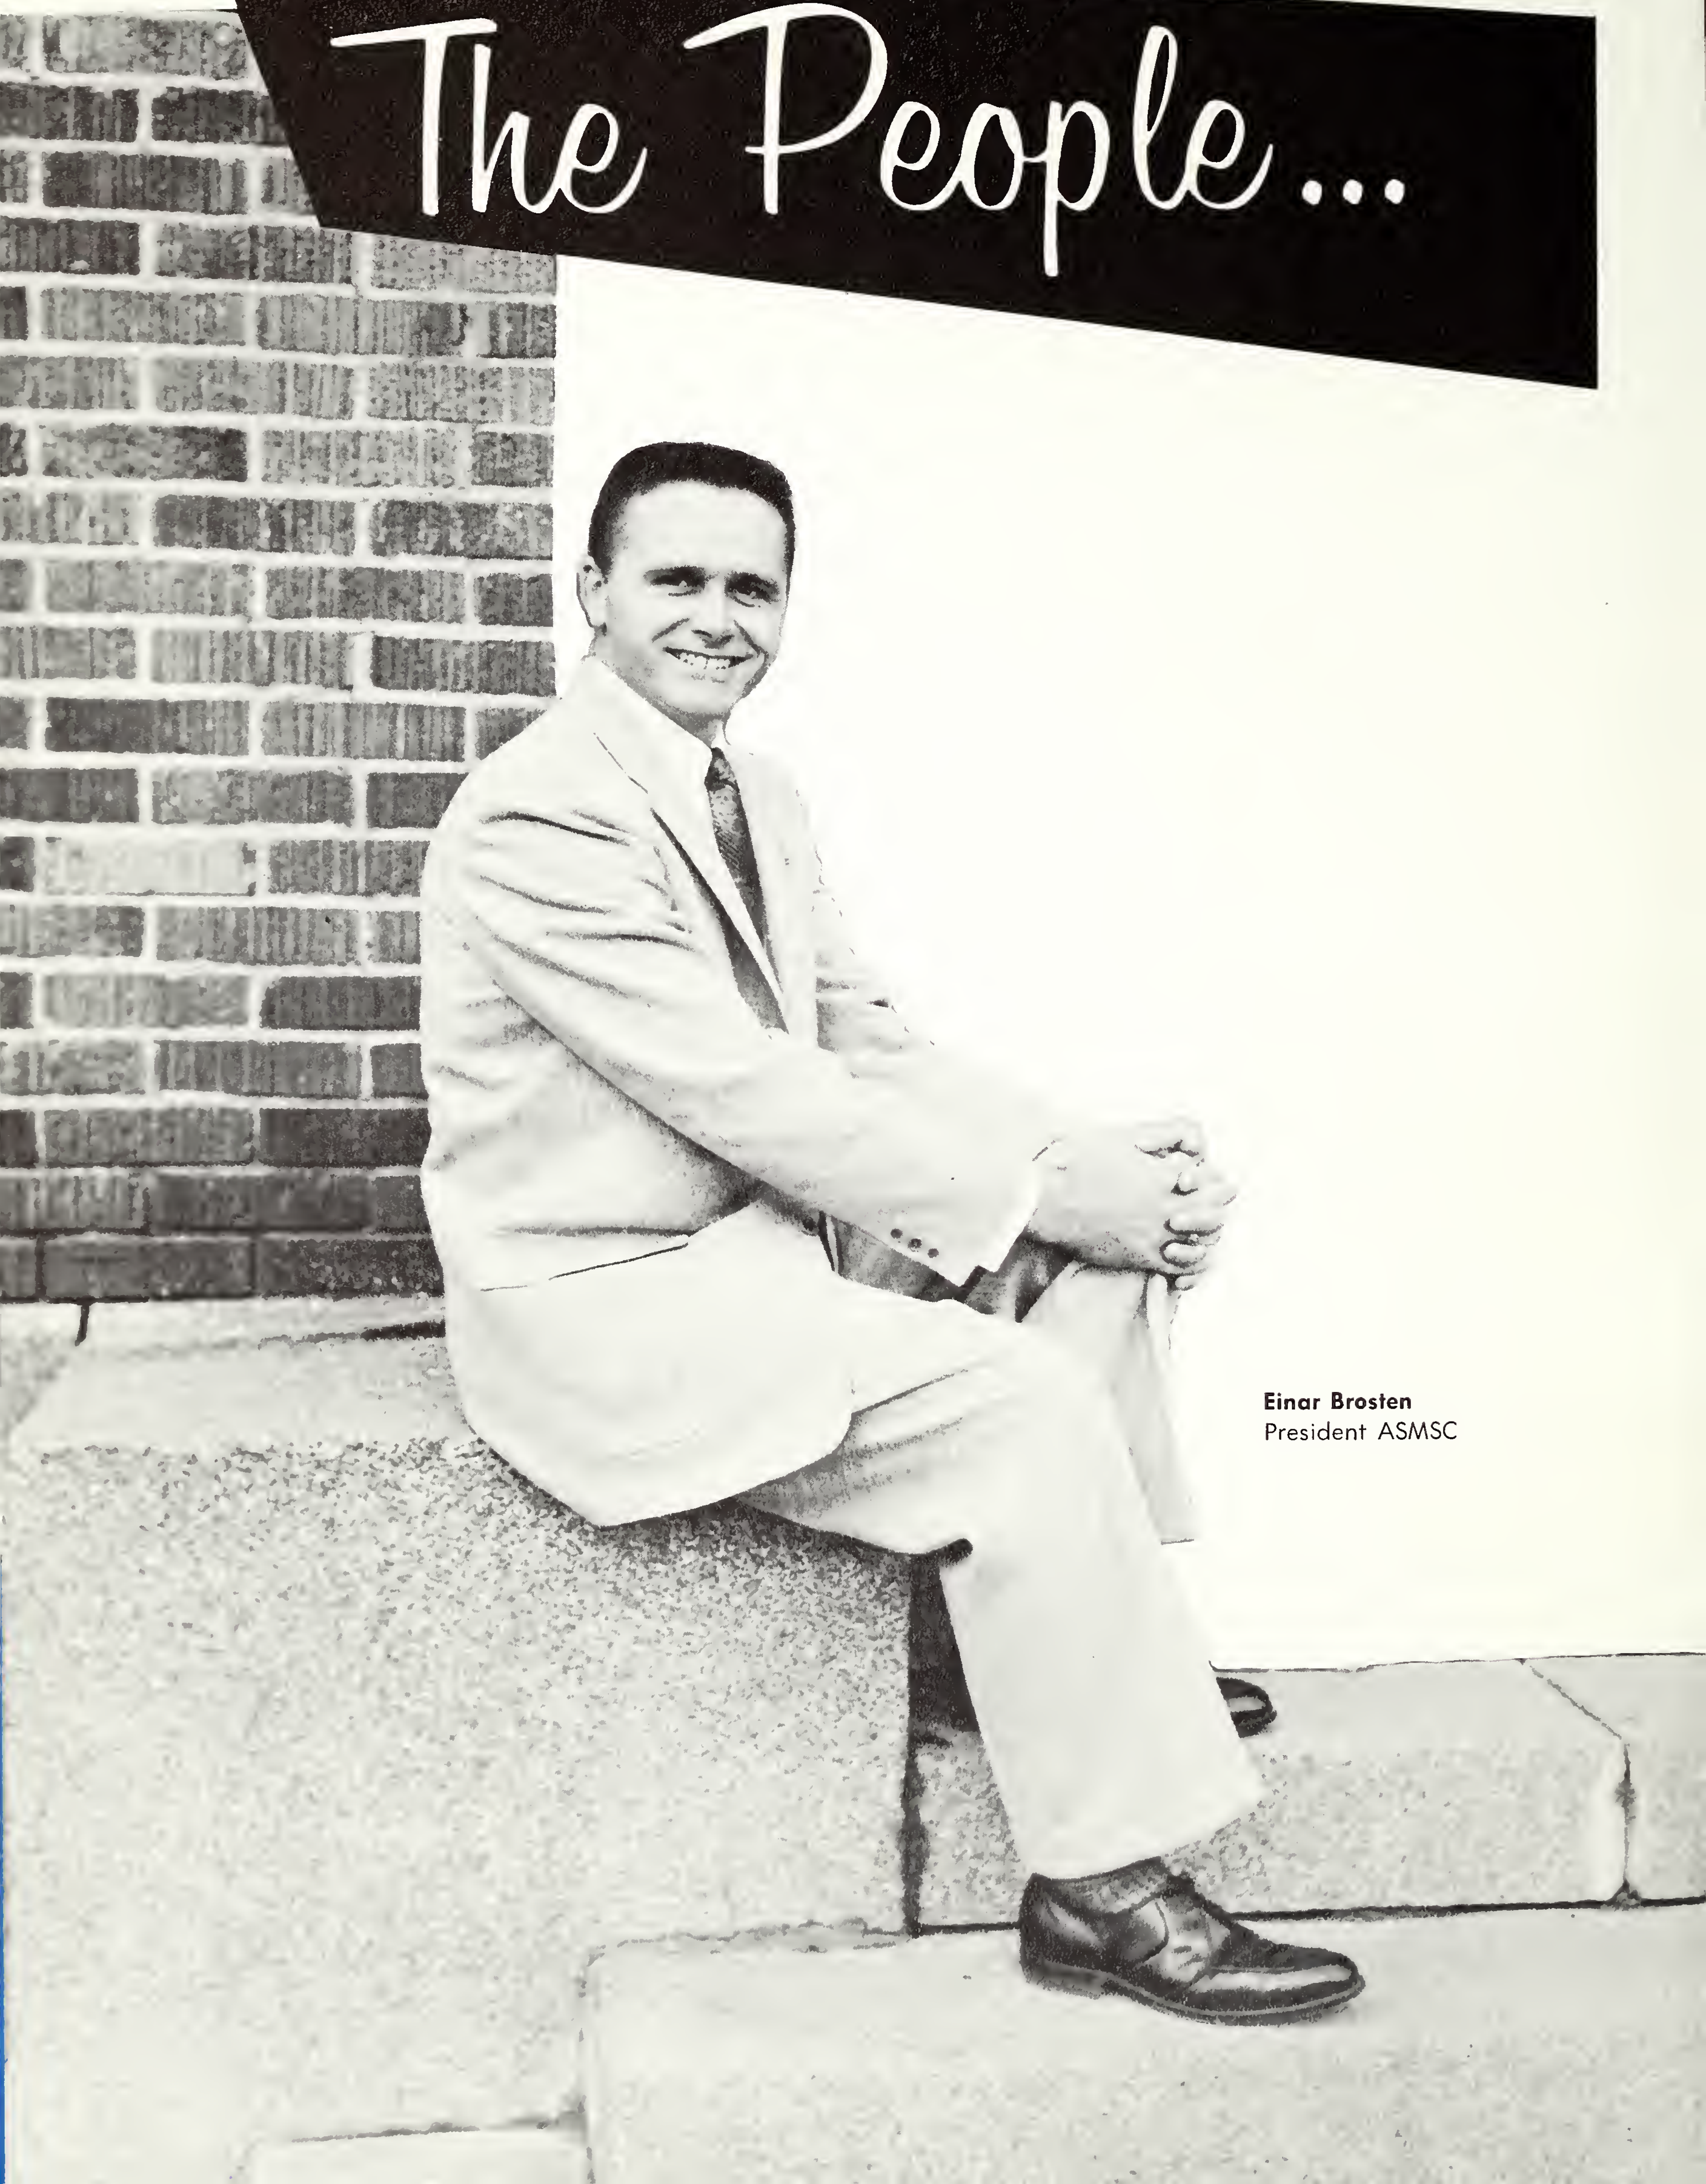
But has climbed

MONTANA ST

to its summit.

ATE COLLEGE

The People...



Einar Brosten
President ASMSC

The President

PRESIDENT RENNE, head of Montana State College, is the person most deserving of our gratitude for this school's manifold accomplishments. Comparing the college of fourteen years ago, when Dr. Renne's term was initiated, to Montana State College today, evokes a feeling of pride in the establishment and in the man responsible. President Renne, we thank you !

The Vice President

DR. P. C. GAINES is a benefactor to Montana State College in a three-fold degree. He serves as vice president of our school, as dean of the faculty, and the students know him best as a professor of chemistry, where he is well-known as a real friend to everyone.

The Dean of Men

Whether your grades be good or you just wish they would, Dean Glynn can give you good advice, twice if need be. His counseling and individual concern show he feels each student is special; and the student body feels that Mr. Val Glynn is pretty special too !

The Dean of Women

Supervisor, organizer, adviser, psychologist, neurologist, studentologist, Dean Brown is better qualified for more positions than any other woman on campus. Her capacity for understanding is boundless and is indicative of her warm personality.

Exponent

The Montana Exponent serves as probably the best source of campus information next to direct communication. It is published weekly and contains such interesting works of art as "Peanuts," "On Campus with Max Schulman," animated letters and editorials, and the news as it happens. This year the Exponent was chosen as the "Outstanding Newspaper" by the Rocky Mountain Collegiate Press Association.

The 1958 Montanan

This Montanan of 1957-58, as you turn its pages, is bringing you a summation of the action on the hill for the current year. You are responsible for what the pages hold and the publication's staff has striven to put it into a form that will satisfy you and have a new refreshing journalistic appeal also.

Panhellenic Council

Panhellenic, "all Greek," is a thumbnail description of Panhellenic Council. We, the president and one member from each sorority, meet every Tuesday to discuss mutual problems, plot rush strategy, and sound off about problems pertinent to female Greeks. Junior Panhell is our young counterpart, which serves the needs of our pledges.

Interfraternity Council, more commonly called IFC, is a male Greek's answer to Panhellenic. Problems common to frats on every campus are aired once a week when we get together for meetings. Eighteen of us, usually the president and one member from each house, try to promote friendly competition and cooperation among frats "on the hill."

We are the "penguin suited" selection of senior men known as Les Bouffons. This year we organized, printed, and sold a "College Men's Guide to Freshmen Women," to be used as the name suggests. The high points of our active year are a banquet for the initiates and their dates, a formal dance when pledges are tapped, and by all means — our weekly meetings. This year our educational tour included all the state's industrial grain laboratory centers!

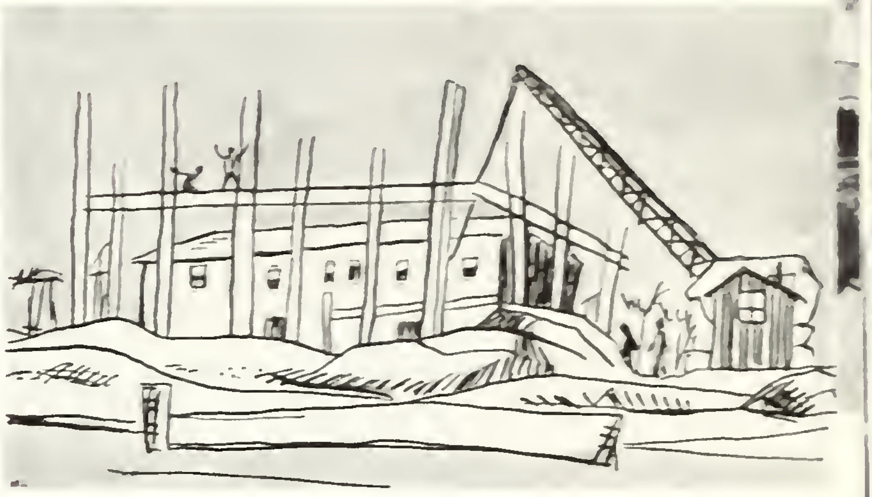
"THE BUG ......

The History



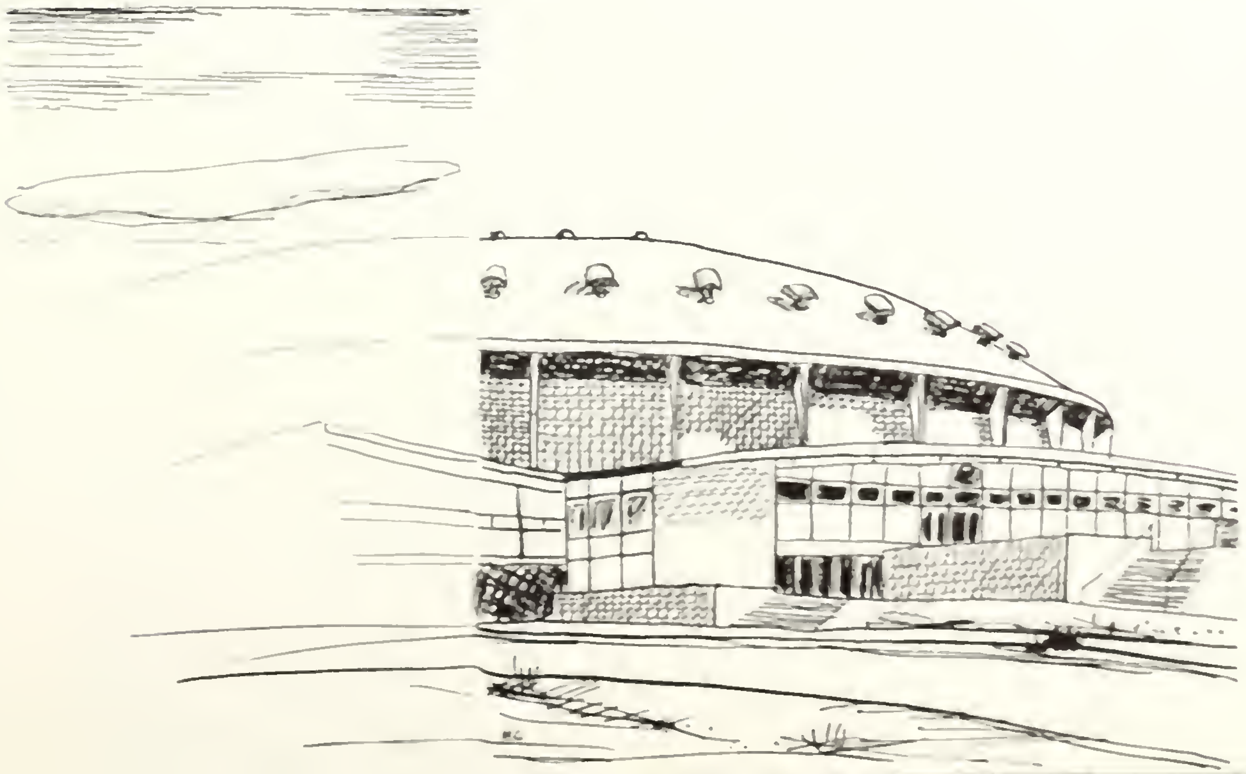
Hello Students of Montana State College: I want you to know what you have done to me, a one time nonentity that you plucked out of nowhere, raised to a state of being, shaped and reshaped, until at last you know me from beginning to end — as you lived it, the History of Montana State College — and this all in a year's time. I now care to reflect back to you this image of your 1957-58 school year and the events that qualify it as one unlike all before and all to come.

Autumn quarter, 2,573 men and 995 women enrolled at the college to make the record of 3,568 students and 2.585 men to every woman. There were 191 graduates: 592 seniors, 625 juniors, 952 sophomores, and 1,208 freshmen. To take care of this swell, 50 new instructors were added to the faculty, and Montana State College continued to shed the old skin it had now outgrown.

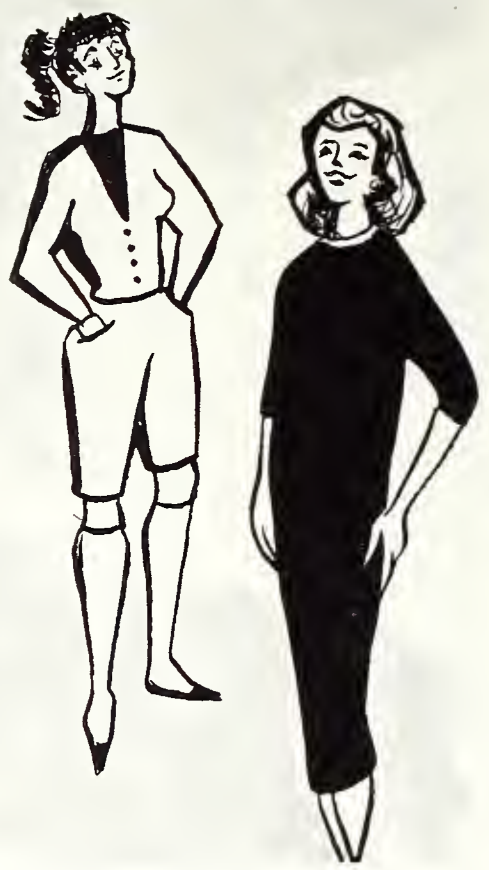
You saw a new four-story classroom and office building break the skyline, and the new dairy center located one mile west of the campus come into view.

You watched the dedication of the largest clearspan timber structure in the world, MSC's Physical Education Center. Your football and basketball teams performed unbelievably against some of the best teams in the country.

The governing body on the hill, Student Senate, carried out many worthwhile projects such as revising the budget system of campus organizations, and holding a leadership training camp at West Yellowstone for all organization executives.



History - continued



Your person, though unaware, changed a good deal also. Coed hair styles went from bobs to pony tails and buns. Dior's sack dress came into some female wardrobes. Bermuda shorts and kneehighs became the accepted casual wear and even leotards served as leggings to keep out Montana's below zero weather.

Well dressed males were seen in polished cottons, suntans, button down collars, and crew sweaters. Ivy league stripes in coats, shirts, and suits were worn by campus connoisseurs, and men took the conservative stand on haircuts.

The price of a normal date, which included a movie for 60c, a hamburger and coffee for 40c, and gas at 39c per gal., amounted to approximately $3.00. Beer sold for 30c per can or 50c by the pitcher, and believe it or not, coffee was still 10c a cup.

These are the places and events that have made it a big year, but it's you, the people of Montana State College who set the most important record for me. Accept or reject it, you possess more knowledge than ever before. Not a day went by that you didn't learn something, or will it ever. I watched you learn, like a snowball rolling down a hill, that with each turn grows a little in volume and in its capacity to hold more.

And so I come to a close, a short-lived history that will long be remembered . . . . So be it. . . .

A Week of Orientation, September 23-27

The Freshmen left their snug little homes a week prior to school for my benefit, Freshman Week. They were orientated, bossed around, even told which hat to wear, but came out of it feeling much closer to their new home — Montana State College.

A Successful Homecoming

I am MSC Homecoming and this year honored the classes of 1932, 1947, and 1952. I was initiated with the crowning of a new queen, nourished by receptions and a memorable parade, and highlighted by a victorious ball game. Yes, I am a venerable thing, but I improve with age.

So we climbed the "M"

M-Day comes to MSC twice a year. It evokes fun and fatigue, and provokes our Freshmen. We rush up the hill, "sprinkle" the M with whitewash, and roll back down all in the good time of around three hours. It's one of our favorite traditions, we always look forward to it, and we especially enjoy talking about it after.

We saw "My Sister Eileen"!

Joe Fitch
Director

The broadway hit "My Sister Eileen" under the directorship of Joe Fitch was very successfully presented Fall quarter. This play was a comedy of the purest kind and audiences had a continuous chuckle from curtain to curtain.

Our annual Christmas Sing, one of MSC's best traditions, joined nineteen college living groups in song. Music traditional and nontraditional, light and religious was presented and "Christmas at MSC" brought Fall quarter to a close.

Religious Emphasis Week

"Live In Faith Today" — LIFT was the overall theme of the 1958 Religious Emphasis Week. Two assemblies, daily seminars, worship services, a play, and eight speakers from various parts of the U. S. were part of this most educational week of religious activities.

Montana State College played host to 18 college rodeo teams from all parts of the northwest in our own fieldhouse rodeo arena. The usual parade, dance, and "living it up" accompanied the rodeo which featured bronc riding, bull riding, bulldogging, calf roping, cow milking, girls' barrel racing, and a new one, girls' goat tying.

Changes great and small were made throughout our university system the past year and our state college saw many. We expanded westward with relocation of the barns. Our new classroom building broke the skyline ready for use in the Fall and ground was broken for a new women's dormitory. Our fishpond took on the "new look." Our Freshman class erected "Welcome to MSC" signs and a Senior class Monument now graces the 8th Street campus entrance.

From Togas to Today . . .

THE ROMANS had a word for it—"bancus." That's what they called the benches in the temples where the men who put money to work sat and carried on the finance of that time. These men became known as bankers. In those days, salt was often left as collateral and transactions were recorded on tablets. Not even Caesar enjoyed the convenience of paying bills by check.

It's a long time from togas to today. But, the tradition of service begun centuries ago still continues. You'll find this bank equipped to meet all your banking needs. Call on us whenever we can serve you.

From Togas to Today . . .

THE ROMANS had a word for it—"bancus." That's what they called the benches in the temples where the men who put money to work sat and carried on the finance of that time. These men became known as bankers. In those days, salt was often left as collateral and transactions were recorded on tablets. Not even Caesar enjoyed the convenience of paying bills by check.

It's a long time from togas to today. But, the tradition of service begun centuries ago still continues. You'll find this bank equipped to meet all your banking needs. Call on us whenever we can serve you.

Today's Projects Mean Tomorrow's Progress

Montana Power is building today to satisfy your needs tomorrow. In just the past year, The Montana Power Company has completed many projects to bring Montanans all the power they need, when they need it and where they need it. Here are some of them:

- Cochrane Dam near Great Falls has been completed, adding 60,000 kilowatts of power to the Montana Power system capability.
- A 161,000-volt transmission line was built from Kerr Dam at Polson to Missoula.
- Electric and natural gas facilities in many local areas have been modernized or extended to improve local service.
- A microwave communciations system to improve electric and natural gas dispatching is nearly complete.

The Montana Power Company and its predecessors have been serving Montana since the 1880's

KNOW MONTANA

History-minded Montana

Montana became history-minded at an early period of its existence.

The Territory of Montana was created under Act of Congress which was approved May 26, 1864. Only 21 months later Col. Wilbur F. Sanders of Virginia City fame and his associates had brought about the passage of a measure creating an historical society.

The first meeting of the organization was held in the office of Dance and Stuart, Virginia City, of Feb. 25, 1965. The first president, temporary and permanent, was Granville Stuart. He also was the first treasurer. H. L. Hosmer was the first historian. The first board of directors was composed of Hosmer, Sanders, Malcolm Clark, Chris P. Higgins and Walter W. DeLacey. F. M. Thompson was chairman of the committee which nominated these officers. Stuart, Thompson and Hosmer were the members that selected the society's seal.

The society was created as exciting history was being made. There wasn't much historical material to work on, except the recollections of the trailblazers themselves.

However, the society did take a firm foothold in those early days and has maintaind an existence without interruption.

For eight years the society depended upon individual effort in the collection of both material and funds. The first legislative appropriation was signed May 7, 1873, and provided for an annual payment of $150 for the purchase of manuscripts and books relating to the territory and for other expenses.
